SET UP INSTRUCTIONS

**VERTICAL EXTRUSION ASSEMBLY**

- **Step 1**: Insert connecting tube into extrusion and tighten the 2 locking screws.
- **Step 2**: Slide other end of extrusion onto connector and tighten the 2 locking screws to secure.

**HORIZONTAL EXTRUSION ASSEMBLY**

- **Step 1**: Insert connector into extrusion and tighten the 2 locking screws.
- **Step 2**: Slide other end of extrusion onto connector and tighten the 2 locking screws to secure.

**CORNER CONNECTION**

- **Step 1**: Line up lock on horizontal extrusion with one of the grooves on the vertical extrusion.
- **Step 2**: Tighten screw to connect both pieces. Can attach extrusions and accessories to all 4 sides of the vertical extrusion.

The ends of each piece is numbered 1, 2, 3, etc. Match up the numbers to construct frame (1:1, 2:2, 3:3, etc). Reference diagram above on where to start frame assembly.
