**ASSEMBLY**

1. Slide pole clips onto Aluminum Pole (B). Place the Black Pole Top (A) onto the top of Aluminum Pole (B). Screw Banner Arm (C) onto Black Pole Top (A).

2. Slide the flag onto Banner Arm (A). Attach grommets to the pole clips around Aluminum Pole (B), except for the bottom grommet.

3. Extend Aluminum Pole (B) to the point until the Spring Buttons (D) lock.

4. Attach weight bag to bottom grommet. Connect the bottom pole clip to the bottom grommet with the weight bag.

---

Do not fly your Empire Pole in extreme winds (Single arm: 24-31mph or 6bft and higher) and/or thunderstorms. Do not use near overhead wires. User must read and observe construction sheet. If this is not done correctly it may result in injury or death and all warranties will be void. All warranties will be void if the Empire Pole hardware is used with any flag not produced by us.
