Labeling Diagram

Section 2:
Kit Assembly

Step by Step

Step 1.
Gather the components to build Section 1 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Methods 2 for more details.

Step 2.
Gather the components to build Section 2 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Method 3 and 4 for more details.

Step 3.
Gather the components to build Section 3 of the tower frame. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Methods 1, 2, and 3 for more details.

Step 4.
Lay the three sections flat on floor. Combine them to complete the tower frame assembly. Use the Exploded View and the Labeling Diagram for part labels.
Reference Connection Method 1 and 2 for more details.
Kit Assembly

Step by Step

Step 5.
Gather the components to connect lighting to the frame.
Connect the lighting components to the frame. Use the Exploded View and Lighting Diagram for part labels. These components simply hang from tube T4 at the top of the frame and the power cable runs down and out of the bottom opening.

Step 6.
Close the zippers and carefully set the frame upright.

Step 7.
Once the unit is upright, test the power connection to the lights. Adjust for minimizing shadowing and hot spots.
Setup is complete.
Connection Methods

Connection Method 1: SNAP BUTTONS

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.

Connection Method 2: TC-30-3W-R

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.

Connection Method 3: COL-01-T6/ COL-01-T3

Slide the COL-T3 into the COL-T6 until it snaps in place. Repeat this for all 4 bottom COL-T2 sections.

Connection Method 4: TC-30-X

First, connect spreader tubes (COL-T3) to TC-30-X. Second, once the X frame is assembled, connect side tubes (COL-T6).
