Kit Assembly

Step by Step

Step 5.
Leave the tower frame flat on floor. Undo the zipper pillow case and pull it over the top of the tower. Work the pillowcase down to the bottom of the frame carefully zip it up and then stand the frame upright.

Step 6.
Setup complete
Connection Methods

Connection Method 1: SNAP BUTTONS

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.

Connection Method 2: TC-30-3W-R

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.

Connection Method 3: COL-02-T3/COL-02-T6

Snap button connections are simple and easy to use. First, locate the snap button on the connector or swage tube. Second, locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the hole. To disassemble, press the snap button and carefully pull them apart.

Connection Method 4: TC-30-X

First, connect spreader tubes (COL-T3) to TC-30-X. Second, once the X frame is assembled, connect side tubes (COL-T6).
