Notes to Designers:

- All graphic files must be built at 150dpi at the overall graphiclayout size.
- All graphic files must be created using CMYK mode to ensure the best color matching.
 If you would like a specific color matched, you MUST provide both PMS color and CMYK values or we cannot guarantee color matching.
- It is best to flatten all images and outline all text to ensure that nothing will be dropped out or changed during the file transfer.
- Graphics can be extended to the very edge but beware of the red visual line. Keep important images & text inside the red visual line. Images outside of the red visual line are subject to be trimmed off or covered by stitching.
- Remove the red visual line and help instructions upon submitting your artwork.

Preferred File Formats:
