Safe Visual Line - - - - -

Notes to Designers:

- All graphic files must be built at 100-120 dpi at the full graphic layout size.
- All graphic files must be created using CMYK mode to ensure the best color matching. If you would like a specific color matched, you MUST provide both PMS color and CMYK values or we cannot guarantee color matching.
- It is best to flatten all images and outline all text to ensure that nothing will be dropped out or changed during the file transfer.
- Graphics can be extended to the very edge but beware of the red visual line. Keep important images & text inside the red visual line. Images outside of the red visual line are subject to be trimmed off or covered by stitching.
- **Remove the red visual line and help instructions upon submitting your artwork.**

Preferred File Formats:
- .PDF (Vector Format or 100% Sized, Text Outlined)

Acceptable file formats:
- .AI or .EPS (Text Outlined, Images Embedded)
- .PSD (100% Sized, 150dpi)
- .JPG / .JPEG (100% Sized, 240dpi)
